Spanning coal decommissioning in the Philippines to

innovation in Southeast Asia, higher education in India, agricultural innovation, China's solar energy grid flexibility, and sanitary and phytosanitary challenges in developing Asia, graduate students from the University of Tokyo and Korea University showcased their research outcomes at ADBI on 15 April. The presentations were outcomes of a two-month internship under the supervision of ADBI researchers Raja Timilsina and Ngawang Dendup. Covering seven evidence-based projects closely linked to ADBI's [Quality Growth](#) framework, the students' work received valuable feedback from Deputy Dean Byungsik Jung and Senior Research Economist Dil Rahut.
